for electronic waste exist. Check with your local authorities for recycling advice.

1. Download the app

Download the free Casambi App directly from the AppStore or the Google Play

[Download on the App Store] [GET IT ON Google play]

For all the functionality of the Casambi App download the Short User Guide from the Casambi website
https://casambi.com/static/datasheets/Short-user-guide.pdf

2. Open the App

Before you open the app be carefull about this points:

- the Bluetooth need to be **ON** on your smartphone or tablet
- have done all the updates of the operating system;
- have installed and configured a Casambi device or a PLH Dimmer or PLH Jellyfish
- have created a '**Network**'

Details   ❯

🏷 **Replace device**   ❯

Replace this device with a compatible unpaired device so that all settings remain unchanged.

To control the Jellyfish output click on 'Control an element' and select then the right output
To control a PLH Dimmer click on 'Control a Luminaire'.

Refer to the Casambi App Manual for any further study.
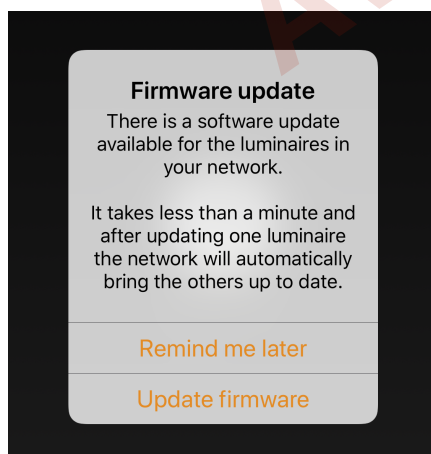

5. Update the firmware
Time to time the firmware update window will appear for some maintanance stuff.
Then perform the update clicking on **Start update.**
Don't forget to take pressed the main push button till the update is not ended.

7. Troubleshooting

1) The MakeUp Aria is a battery device. If not function check the blue light turn on when you click the main push button. If not, change the battery following the instructions.

2) The MakeUp Aria use the bluetooth signal, for communicate between the devices. Refer to the Casambi website to discuss all aspects related to this technology.

3) You can control devices in a range up to 10m but it strongly depends by the surrondings. If the 'receiver' device like a Casambi Dimmer, is inside of a metal box this range can reduce significatevely.

Firmware update

There is a software update available for the luminaires in your network.

It takes less than a minute and after updating one luminaire the network will automatically bring the others up to date.
